

2025 SUMMER INTERNSHIP OPPORTUNITY FOR STUDENTS

Open to college students studying Environmental Science/Compliance or a related field

Job Title: Environmental Intern

Location: Weatherford, TX

Job Type: Paid Internship – Full-time (40 hours/week)

Duration: Summer 2025 – June 2, 2025 – August 15, 2025 (can be adjusted)

Tasks to include, but not limited to:

- Perform on-site surveys at active compressor stations and plants
- Collect data for air permitting, greenhouse gas reporting, Spill Prevention Control and Countermeasure (SPCC) plans, & safety compliance
- Assist in organizing multiple databases from information gathered in Microsoft Excel
- Aid in SPCC reviews and preparing SPCC Plans
- Research and interpret environmental regulations and assist in preparing documents for filing with State and Federal Regulatory authorities
- File and scan paper files for file system conversion to electronic

Education Requirements:

- At least 2 years of college work with an emphasis in science, preferably Environmental Sciences or a related field

Basic Skills Required:

- Microsoft Office (Word, Excel, Visio, SharePoint, etc.)
- Ability to lift 50 lbs.
- Must work independently with minimal supervision after training (will be working in an active location with little to no supervision)
- Demonstrate strong initiative and excellent interpersonal skills
- Strong problem-solving skills
- At a minimum, have a Class C Texas Driver's License (will be driving within the North Texas region)

Preferred, but not required:

- Coursework or classes with a focus on Environmental Regulation and Compliance are preferred

To apply, please send an email with your resume attached, the position you are applying for, and a few sentences about why you would be a good fit for this position to resumes@coltmidstream.com.
